

Chairman's Message

Dr. Rajeswari Mukesh
Chairman

Computer Society of India is a body of computer professionals in India. It has now grown to be the national body representing computer professionals with more than 1,25,000 members. It is quiet rewarding to note that the CSI Kancheepuram Chapter is bringing out a Newsletter to publish the latest trends in technology and events related to Computer Science and Information Technology. Hope the newsletter would bring out the most needed industry 4.0 that describes the technologies towards automation and data analytics in manufacturing technologies and processes which include cyber-physical systems (CPS), the internet of things (IoT), industrial internet of things (IIOT), cloud computing, cognitive computing and artificial intelligence.

I am sure that this newsletter will provide an affable environment where research scholars, academicians, industry experts could freely exchange their views and ideas with Computer Science Professionals to enrich their knowledge.

With warm regards,
Dr. Rajeswari Mukesh,
Chairman, CSI-Kancheepuram Chapter
