CALL FOR PAPERS

This conference invites unpublished research papers articles and case studies from authors to present and exchange the knowledge on the recent development in Engineering and Technology.

Topics to be Covered includes (but not limited to)

➤ ARTIFICIAL INTELLIGENCE
➤ HIGH-PERFORMANCE COMPUTING
➤ CLOUD COMPUTING
➤ DATA PRIVACY AND PROTECTION
➤ CYBER SECURITY AND FRAUD DETECTION
➤ COMPUTER VISION AND APPLICATIONS
➤ APPLICATIONS OF IMAGE AND VIDEO PROCESSING
➤ ROBOTICS
➤ IOT INTERFACES
➤ WIRELESS SENSOR NETWORKS
➤ ADVANCES IN SENSOR TECHNOLOGY
➤ INTELLIGENT TRANSPORTATION SYSTEMS

ABOUT THE CONFERENCE

The objective of ICTACC'22 is to provide a platform to present and discuss all the latest research and results of scientists related Computer Technologies, Communication Technologies, Robotics in real world activities. This conference provides opportunities for the different areas delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration. The conference will be held every year to make it an ideal platform for people to share views and experiences in Computer Science and Information Technology related areas.
